INTRODUCTION

This document is published by the Kansas Department of Health and Environment, Bureau of Family Health, 1000 SW Jackson, Suite 220, Topeka KS 66612 1274. Toll-free 1-888-744-4825. It is published in compliance with the amendments to K.S.A. 65-6708 et seq., known as the Woman's Right-to-Know Act. This directory is published for information purposes only. The State of Kansas does not necessarily endorse the agencies listed herein and does not directly or indirectly promote, exclude or discourage the use of any agency or service in this directory.

By calling or visiting the agencies and offices in the directory you can find out about alternatives to abortion, assistance to make an adoption plan for your baby and/or locate public and private agencies that offer medical and financial help during pregnancy, during childbirth and while you are raising your child.

Many public and private agencies exist to provide counseling and information on available services. You are strongly urged to seek their assistance to obtain guidance during your pregnancy. In addition, you are encouraged to seek information on abortion services, alternatives to abortion, including adoption and resources available to post-partum mothers. The law requires that your physician or the physician's agent provide the enclosed information. K.S.A. 65-6708 et seq.

KANSAS LAW

It is unlawful for any individual to coerce a woman to undergo an abortion;

Any physician who performs an abortion upon a woman without her voluntary and informed consent may be liable to her for damages;

Kansas law permits adoptive parents to pay costs of prenatal care, childbirth and neonatal care.

MEDICAL ASSISTANCE BENEFITS FOR PRENATAL CARE, CHILDBIRTH AND NEONATAL CARE

You may or may not qualify for financial help for prenatal (pregnancy), childbirth and neonatal (newborn) care, depending on your income. If you qualify, programs such as the state's medical assistance program, called Medicaid, will pay or help pay the cost of doctor, clinic, hospital and other related medical expenses to help you with prenatal care, childbirth delivery services and care for your newborn baby. Contact the health department and the Kansas Department of Social and Rehabilitation Services office that serves your county.

THE FATHER'S RESPONSIBILITY

The father of a child has a legal responsibility to provide for the support, educational, medical and other needs of that child. In Kansas that responsibility includes child support payments to the child's mother or legal guardian. A child has rights of inheritance from their father and may be eligible through him for benefits such as life insurance, Social Security, pension, veteran's or disability benefits. Further, the child benefits from knowing the father's medical history and any potential health problems that can be passed genetically.

Paternity can be established in Kansas by two methods:

The father and mother, at the time of birth, can sign forms provided by the hospital acknowledging the paternity and the father's name is added to the birth certificate.

A legal action can be brought in a court of law to determine paternity and establish a child support order.

Issues of paternity affect your legal rights and the rights of the child. More information concerning paternity establishment and child support may be obtained from any regional office of the Kansas Department of Social and Rehabilitation Services, Division of Child Support Enforcement.
